TRADE IN YOUR ERWIN LICENSE AND TRADE-UP TO EMBARCADERO ALL-ACCESS

ERwin is a tool for database design and data modeling. But you know it takes more than just a modeling tool to successfully architect and deploy systems. It's about having access to all the right tools at the right time to successfully design, develop, test, deploy, optimize, monitor and manage changes across your enterprise. For this, you need Embarcadero All-Access, the ultimate, multi-platform database and application development tool chest.

WHAT IS ALL-ACCESS?

Embarcadero All-Access is about moving from an array of standalone products to a modernized tool chest; from managing multiple vendors to a single trusted relationship. All-Access provides the benefits absolutely crucial for your large organization:

- Industry leading, award-winning tools for data professionals and developers.
- Ease of software asset management, and improved budgetary predictability, through a single license covering multiple tools, platforms, and user roles.
- Centralized licensing, with reporting and optimization options to maximize your license value, simplify your license management, and ease compliance.
- Hassle-free software deployment, including a zero-install option available through a revolutionary on-demand model.

1 IDENTIFY YOUR QUALIFYING TRADE IN

Embarcadero wants to make it easier and less expensive for you to trade up to Embarcadero All-Access and get really productive – fast. With this limited-time trade up program, you can make the leap from ERwin to the world's most comprehensive database tool chest, Embarcadero All-Access, which includes ALL the tools you need for data modeling, enterprise model metadata management, administration, SQL optimization, database change management, compliance, and more!

3 SELECT YOUR DESIRED FORM OF LICENSING

All-Access is not only about providing more capability at less cost. It's about managing your software assets more easily. All-Access provides three licensing options – Workstation (single user, single machine), Network Named User (network-authenticated user licensing), and Network Concurrent (fully pooled shared licenses). These more flexible licensing options help you measure and maximizing license utilization: getting the most out of every license while reducing the hassle of asset management and compliance.

4 MAKE THE SWITCH

With Embarcadero All-Access you get:

- **All-Access Pass** – a license key that unlocks all tools for a given All-Access level.
- **All-Access Client** – a portal into the All-Access toolbox, providing convenient access to your tools including launching, installing, updating, versioning, and more.
- **All-Access Server** – provisions licenses, installs, and updates to All-Access Clients on your network.
- **All-Access Membership** – provides support, updates, upgrades, new products, access to the Embarcadero Developer Network (EDN), plus Embarcadero® InstantOn™ for click-and-run access to your tools with no installation.
